<p>All staff at Flinders are responsible for understanding their obligations and responsibilities as set out in the University's code of conduct and are expected to:</p> <ul style="list-style-type: none"> <li>• demonstrate commitment to the University's values of Integrity, Courage, Innovation, Excellence and the underlying ethos of being Student Centred;</li> <li>• contribute to the efficient and effective functioning of the team or work unit in order to meet the University's objectives. This includes demonstrating appropriate and professional workplace behaviours, providing assistance to team members if required and undertaking other key responsibilities or activities as directed by one's supervisor;</li> <li>• promote and support an inclusive workplace culture which values diversity and embraces the principles of equal opportunity;</li> <li>• perform their responsibilities in a manner which reflects and responds to continuous improvement; and</li> <li>• familiarise themselves and comply with the University's Work Health and Safety, Injury Management and Equal Opportunity policies.</li> </ul> <p><i>A National Police Certificate which is satisfactory to the University will be required by Flinders University before the successful applicant can commence in this position.</i></p>

### KEY POSITION RESPONSIBILITIES

This position is predominantly concerned with teaching and teaching-related duties involving the creation, delivery and continuous quality improvement of university-level education. It includes (but is not limited to): direct teaching informed by approaches that enhance the student experience; curriculum design and review; delivery innovation; advancements in education technologies; and making an independent contribution to maintaining internal and external compliance and accreditation of courses. The position is also expected to make an independent contribution to high-quality university, professional and community service. The position does not include making a research contribution.

#### *Teaching:*

- Create, coordinate and conduct inspiring teaching informed by approaches that enhance the student experience, with a focus on Business Analytics topics, across all levels and modes, of the College.
- Contribute to the planning and evaluation of these topics, undertaking the role of Topic Coordinator as required.
- Make an independent contribution to the review, renewal, development and design of curricula and courses that are attractive to existing and new cohorts of students and that nurture creativity and critical-thinking skills.
- Provide support, academic counselling and professional advice to students concerning their studies, professional development and career opportunities.
- Make effective use of innovations and technologies in teaching practice.

#### *University, Professional and Service:*

- Participate in the College's administrative activities such as membership of committees and working groups and attendance at College meetings.
- Maintain professional knowledge relevant to teaching within their discipline through scholarship and professional development.
- Engage in activities within a relevant external professional domain such as professional associations, conferences and workshops, and within a wider community context at local, national or international level.
- Provide high quality contribution to community service on behalf of the College and University.
- Undertake activities that promote the development of productive partnerships to provide opportunities for students and promote graduate employability.
- Any other responsibilities in line with the level of the position as assigned by the Supervisor and/or the University.

**KEY POSITION CAPABILITIES**

- Completion of a PhD or EdD, or equivalent qualification in business analytics or a related field.
- Experience of significant teaching and learning experience and excellence at a tertiary level in business analytics, Artificial Intelligence, and/or cybersecurity management.
- Evidence of successful and independent innovation in learning and teaching delivery or design, including use of e-learning technologies particularly in business analytics, and AI applications
- Advanced programming skills (ideally in Python) and experience handling large datasets.
- Ability to develop new topics in the area of business analytics, cybersecurity management, and data warehousing, and AI Business Strategy.
- Demonstrated experience or capability to engage with students (and deliver teaching modules) via online learning platforms.
- Demonstrated excellent oral and written communication skills and interpersonal skills, including the demonstrated ability to establish effective relationships with staff, students and industry.
- Experience with engagement within a relevant external professional domain and within a wider community context at local, national or international level which could include working parties, committees, professional associations and conferenced workshops.
