

YOUR GUARANTEED PLACE AT FLINDERS
YEAR 12 GRADES ENTRY

YEAR 12 GRADES ENTRY

Students are able to gain a place at Flinders University by using their three best Year 12 grades. This opportunity is in addition to the existing range of entry pathways. For more information about the pathways available please visit: flinders.edu.au/pathways

Eligibility

All applicants who have studied Year 12 in South Australia or the Northern Territory are eligible to apply. To be considered through this pathway, applicants must not have completed more than two years of full time (or equivalent) study at a university or other higher education institution.

How to apply

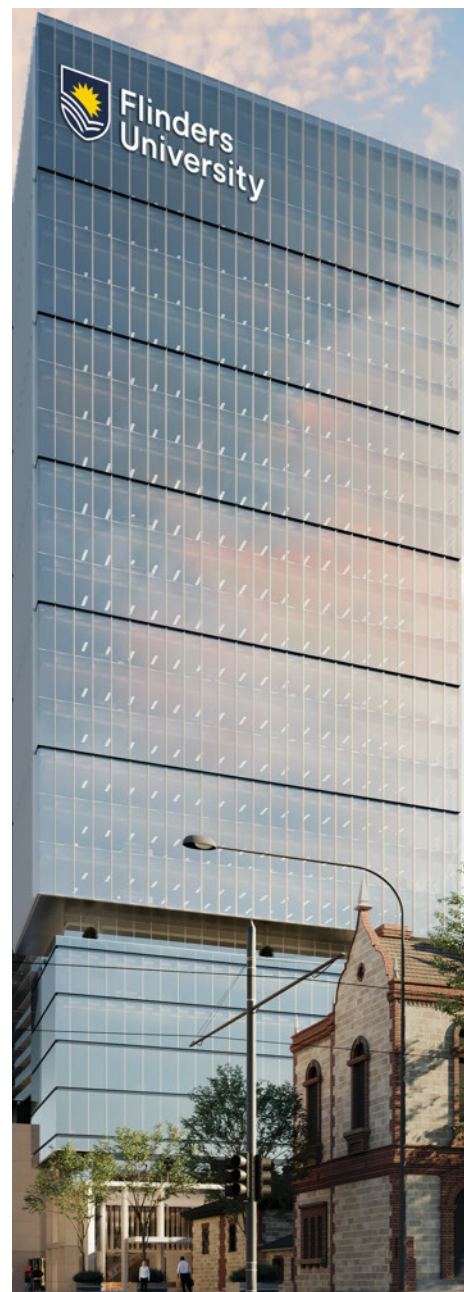

Students should check the courses and grade bands available and ensure that their preferred Flinders course is listed as their highest preference when they apply through the South Australian Tertiary Admissions Centre (SATAC). They don't need to do anything extra.

If they meet the minimum Year 12 grade results listed, they have a guaranteed place at Flinders.

Combined degree options for the courses listed are also included.

Key points to remember

- Subjects need to be 20-credit Stage 2 Tertiary Admission Subjects (TAS) or equivalent.
- Final moderated South Australian Certificate of Education (SACE) or equivalent grades will be used. Scaled scores are not used, therefore all 20-credit TAS subjects are weighted evenly.
- Entry is based on the letter grade (including plus or minus)
- For degree entry, applicants must complete the SACE and need to achieve a minimum Australian Tertiary Admission Rank (ATAR) of 50. For Diploma level course entry SACE completion only applies.
- Minimum ATAR is before any adjustment factors are applied.
- Applicants will be considered on their Year 12 grades as long as they have not completed more than two years of full time (or equivalent) study at a university or other higher education institution.
- Any subject prerequisites, portfolio or other entry requirements will also need to be met (as detailed on the relevant course webpage).
