# Why study health at Flinders University?

## Connect with industry leaders

Flinders enjoys strong partnerships with disability, aged care, elite sporting clubs and many more.

## Learn from the experts

Learn from our award-winning teachers and a hands-on curriculum that encourages you to explore and ask questions. The majority of our staff are working in clinical roles, so you will learn from people currently practicing in the field.

## Real-life experience

There are over 1000 hours of fieldwork experience in a range of clinical locations. Flinders students also have many practical components taught throughout the program to ensure they are career-ready at graduation.

## Quality learning environment

Small class sizes ensure a personal and supportive approach to learning. The relationships we have with our students and graduates are highly supportive and long-lasting.

## Become a sought after, multi-skilled and career-ready graduate

Our graduates have an excellent understanding of whole-of-health management and are well equipped to deliver patient-centred care.

## Studying in Adelaide

Adelaide is alive and vibrant. Local fresh food markets, exciting restaurants and cafés, international sporting events and world-renowned arts festivals are just a few of the reasons that studying in Adelaide gives you a quality of life that you won't find anywhere else in Australia.

With a relaxed lifestyle, excellent education and one of the most diverse mix of students out of any city in Australia, it is no wonder Adelaide consistently ranks as one of the most liveable cities in the world. \*

## Master of Speech Pathology

Speech Pathologists work with people whose educational, vocational, personal and social functioning is affected by communication or swallowing impairment resulting from developmental difficulties, social disadvantage, illness or accident.

Speech Pathology graduates are employed within both public and private healthcare providers and work with people of all ages.

**Duration: 2 Years**

**Intake: March**

**CRICOS Code: 054304D**

## Bachelor of Health Sciences / Master of Occupational Therapy

Occupational Therapists evaluate and identify barriers to people participating in the activities that matter to them. They then work with people to improve their skills and abilities, change the way they do an activity, or modify their environment, to help them live their best lives. This helps contribute to their overall psychological and physical wellbeing.

Occupational Therapy graduates are employed within both public and private healthcare providers and work with people of all ages.

**Duration: 5 Years\***

**Intake: March**

**CRICOS Code: 0100689**

## Bachelor of Health Sciences / Master of Physiotherapy

Physiotherapists bring together expertise in a range of body systems. They work to assess and manage people with musculoskeletal, cardiovascular, respiratory or neurological impairments and conditions, to help them move well, stay well and live full lives.

Physiotherapy graduates are employed across a broad range of healthcare settings in both public and private sectors.

**Duration: 5 Years\***

**Intake: March**

**CRICOS Code: 0100688**

## Master of Audiology

The Master of Audiology is a professionally oriented course for graduates interested in acquiring knowledge and skills in the evaluation and management of auditory disorders (hearing loss and tinnitus) and their consequences.

This course prepares you to become a well-informed health professional and begin clinical practice as an audiologist in urban, rural, and remote settings. Additionally, the course will help you acquire critical skills in appraising scientific and clinical information which will assist your further professional development.

**Duration: 2 Years**

**Intake: March**

**CRICOS Code: 027824D**

\* If you already have an undergraduate degree, you can complete the Master of Physiotherapy or Master of Occupational Therapy only, in 2 years.

“A Physiotherapy degree at Flinders University gives me the flexibility and opportunities to open doors to work either in Australia or back home in Canada. After the completion of my program, I can register to practice as a physiotherapist in Australia within 1-2 months. I can see myself working here in Australia for a year or two and eventually go back to Canada and practice there.”

**Francis Tungcol**  
Master of Physiotherapy (Canada)

## Health2Go

Health2Go is a student-led clinic based at Flinders University's Sturt Campus. The clinic offers services that cover a wide range of specialties, including diabetes management, exercise physiology, hearing assessment, midwifery care, paediatric dietetics, nursing, occupational therapy, physiotherapy, speech pathology, and vision services. Health2Go's team comprises expert clinicians who supervise Flinders' student practitioners to provide personalised, innovative and affordable healthcare solutions to the local community.
