

# Study

## *Bachelor of Paramedicine*

**Develop the skills, knowledge, and attitudes to deliver best-practice patient care from site to hospital.**

### **Comprehensive hands-on experience**

You'll gain hands-on experience through shifts with patient transport services, emergency support teams, and emergency operations. Plus, with approximately 300 hours of emergency ambulance placements, you'll be well-prepared for real-life situations.

### **Opportunity to work globally**

Earning a paramedicine degree in Australia makes you highly sought after by ambulance services worldwide, offering you the opportunity to work as a paramedic around the world.

### **Professional registration**

This course is approved by the Australian Health Practitioner Regulation Agency (AHPRA) for first professional registration as a Paramedic under the National Law.

*“What I have loved the most about my degree is how practical it is! I was not anticipating for us to be right in the mix of things so quickly with placement, but I had already done two shifts with SA Ambulance Service before first semester was over and it was extremely insightful to be able to get this first-hand experience so early into my degree.”*

**Suranya Siriwardana, Bachelor of Paramedicine**
