Over
3000

Students completed **Library World** & after they would:

"...take more care in only using credible, academic, peer reviewed literature for my assignments because it will help me build stronger arguments and develop more sophisticated writing skills. I will follow the scholarly conversation by using authors who have been referred to in other peer reviewed articles."

"Click the 'cited by' more often. Go to the shelves and just have a look at the books. Ask a librarian if need be. Be a bit more enthused to be involved in the 'academic conversation' that has been going on for so long. I didn't learn heaps as I've been studying for a while but I really enjoyed these videos! It's inspiring to hear from so many academics and hear the methods they actually use.

Thank you"
